I had the chance to witness her powerful presence when she gave a workshop held for 70 people with the aim of encouraging female leadership, where she successfully translated the theory of Artificial intelligence and Machine Learning into a captivating message with a wonderful sense of humour met with enthusiasm from the participants. We are grateful Fiona volunteered her time and gave a workshop for Female Ventures."

H. Simpkins, Senior Internal Communications Business Partner AXA UK: "Thank you Fiona for a really thought provoking session. Left me with a lot of thoughts around the role of AI in speeding up what we do, and how we can use it to improve the visual nature of our messages. It's always been the costliest part of comms to create visually engaging stories but as you say Fiona, so much opportunity if we do."
